Synopsis

Neville Goddard (1905 - 1972) is one of the best-loved authors of the New Thought movement. In *Feeling is the Secret*, Goddard presents his best ideas on how to use sleep-hypnosis to manifest your best life. He gives step by step instructions on how to use sleep hypnosis for best results, as well as why it works. He also discusses the power of prayer, what prayer really is, and how to use prayer to manifest. This book gets right to the point without a lot of fluff - it's a great one to have in your library for learning how to manifest using positive feeling. *Feeling is the Secret* is simple, straight forward, clear, and very accessible.

What people say about this book

Cassandra, "I See Why FEELING is a Secret. When good things happen to you out of the blue or unexpectedly, do you ever ask yourself how did that happen, or why it happened to you? Well, I don't either! What I ask myself and have been asking myself for the last couple of years is, "WTH? I thought I was finally getting out of this awful rut I've been in for the last several years the last time something really good happened to me? What happened?!!! Where is the consistency? Why does there seem to be more negative things in my life than positive?"On the days that I'm not completely aggravated by the unacceptable things in my life, I self motivate and get creative with all kinds of things I want to do. And I make them all happen! It is magical! That is until... I don't know what it is I do to create the happiness and joy I experience when I make things happen. UNTIL NOW. I read Feeling Is The Secret the day I bought it. And it clicked! I first heard of this secret from Greg Braden on his Youtube video about prayer. It resonated with me and I have been on a quest to understand it ever since. After reading this book, the application was explained in plain words so I was actually able to implement this secret immediately into my daily life. I mean instantly!! No longer do I ask those questions nor even have the need to. I finally got a grip on to something wonderful I've always known but had my emphases on the thought and not the feel of a thing. This is REAL! My confirmation of the truth I read in this little book was immediately after reading it I felt the stress literally fall off my body. I've been stuck in the bed everyday since the first week of February. I've been out of the bed everyday since I read this book and understood that I have the will to choose what I want to think about, how I want to feel about what I think. I could write more about my experience which is all great, it is just too personal for the public though. Y'all understand. The last thing I will say about this book is that it is life changing, if you get it and apply it. Pay close attention to your feelings and how you choose to feel because our feelings are more important than we were ever taught. I see why it is a secret. This is just my take on this book, thanks for reading my opinion. I hope it helped someone out there. Blessings and Peace to ALL!"

Reyna Santillan, "This is absolutely one of my very favorite books. It carry it as if it were a bible. THIS....IS THE REAL SECRET!. This is absolutely one of my very favorite books. It carry it as if it were a bible. The book is short and extraordinarily sweet! Though I have always been a person who read about personal power, wellness and prosperity, I had never heard any other personal power guru stress how important it is to FEEL what you want to attract, rather than just think of success all day. I found this book by the strong recommendation of Dr. Wayne Dyer's (known as Father of Motivation), though Dr. Dyer's audio videos. Dr. Dyer talks a lot of Mr. Neville and how his teachings are remarkably on mark. I tell you this, my life has changed for the glorious best. Manifesting love and success had been much more effective by using feelings, rather than just being positive. But be aware, should you use feeling when thinking of negative thoughts, it could be a disaster. This book should be must read for everyone. No matter what

religion,”

K. Spruill, “Loved It. The title speaks for itself. Feeling is the secret. The last 5 minutes before sleep are the most important. That's when contact with the subconscious mind is the most powerful. Read this book to learn how to use that time to change your life. Neville should be mandatory reading. All his lectures and writings were to share what he learned. To serve others. Today when I read "New Age" authors, they're all peddling their wares, stating they have "the secret" to change your life. And most are just taking what Neville taught and putting their spin on it. You don't have to sift through all of that, just stick with Neville (and a few other classics out there).”

Dottie Randazzo, “A Short but Powerful Bbok. This book covers 4 principles: Law and it's Operation; Sleep; Prayer; and Spirit-Feeling.In the Chapter "Law and It's Operation" the author tells all about the Law of Consciousness and the method of operating this law so you can accomplish anything you desire in life. The author covers the subconscious and feelings.The author indicates that there are 2 gateways into the subconscious - Sleep & Prayer.Chapter 2 is about how sleep is when we enter our subconscious to make an impression and receive our instructions. The author states it is important that you always go to sleep with the feeling your wish as been fulfilled.Chapter 3 - Prayer, the author states, is like sleep as it is an entrance into the subconscious mind. The author states that prayer is the art of assuming the feeling of being and having that which you want.Chapter 4 - Spirit-Feeling the author states the importance of capturing the feeling that your wish has been fulfilled. The author states faith is feeling.”

M. W. Harris, “Left me feeling fabulous!. What an amazing, insightful and inspiring book. I have read (and love) Esther and Jerry Hicks, Wayne Dyer and many more but I'm so glad I discovered Neville Goddard. He has a way of writing that is incredibly easy to understand. He is the first person that has talked about the relationship between the conscious and subconscious mind that has made perfect sense to me and simplified the whole process of manifesting our desires.This book has also given me a new perspective on sleep and prayer, again simplifying things and making me feel excited about trying Neville's suggestions. I would recommend this book to anyone interested in the spiritual side of LoA and I'm already ordering more of his books.”

Time-Traveller 1111, “This book conveys in a nutshell how to 'feel' your This book conveys in a nutshell how to 'feel' your way to success in all areas of your life. Chapter 2 is particularly valuable, because it explains how the thoughts that you drift to sleep with create your reality. Overall, the author communicates that we must imagine our lives in the context of 'The wish fulfilled', which means visualising your desires as if you already possess them. I have started going to bed imagining my wishes fulfilled, and already a much treasured desire of mine is beginning to materialize.”

Amanda Gilbert, "You need this little book today.. Wow this book and the wise words written by Neville Goddard really hit home. It's so short but tells you and explains to you everything you need to know about changing your life through consciousness and subconscious thoughts. It's makes perfect sense and I have read a lot of books on ask and it is given. However although I am a true believer in my Heavenly Father and pray I have to admit that I have never thought about things as this book points out. This has opened my eyes and my mind and given me total faith in my abilities to change my life for the better in more ways than I could ever imagine. If you really want to change your life then this small book is a must have. I'm going to keep on and on reading this book until I don't forget a single thing written in it. It takes me about 45mins to read but tells everything that you will ever need to know. Thank you Neville Goddard for writing it. And thank you amazon for making it possible for me to purchase it and change my future and my life for the better "

M. Canning, "Fantastic, must read!. Fantastic concepts. I always felt I was unlucky to have been brought up by Catholics and had their belief system forced on me. However, reading this book confirmed my suspicions and also put all the religious concepts to good use. I'm not sure I'd have got it without the religious back drop, but the explanation of the bible as a metaphor for the mind is an excellent one. This book has improved my life no end - I went on and read all Goddard's books as a result. If you get what Goddard is saying, then life will have more meaning, more joy and more abundance. I can't recommend this book highly enough!"

Shopaholic girl, "Neville Goddard, Buy this book now!. I'm currently working my way through all of Neville Goddard's great masterpieces of simplifying the great truths of living this great life. The best thing about reading his books is that they are small books, packed with powerful pieces of information when strung together simplify metaphors and outlooks that in such a way that it's easy for the reader to take this away and apply it to your own life with ease, he truly inspires engagement with your imagination. Truly amazing, and I'm forever grateful that he took the time to document these books, I believe they change the life of anyone reading them with an open and hungry to learn kind of mind. Enjoy!"
