## What people say about this book

BookBuzz, "Fast-paced Coming-of-Age Story. I enjoyed this fast-paced coming-of-age story that takes place in a medieval kingdom that resembles Galicia, in Northern Spain. A feisty young princess loves horses and sword-fighting more than the usual princess pursuits such as flirtation and ballroom dancing. The story becomes even more interesting when Princess Andrea steps into a cave and discovers a portal that leads her to modern-day California—in a parallel universe. There's never a dull moment, wherever the Princess is! She struggles to heal a difficult relationship with her mother, causes a war between kingdoms, and experiences love and loss."

R. Kyle, "Move Over Harry Potter--Princess Andrea Has Arrived!. Princess Andrea, the captivating heroine of this book, has grown up in a mythical kingdom that is definitely "long ago and far away". It is a place full of castles, knights, fair ladies, enchanting, mysterious landscapes, and enough action, adventure and romance to enthrall 'tween and young teens in a big way. Now that she is 14, Andrea is expected to give up her tomboyish ways, relinquish her freedom and become a "lady" with a capital "L". Predictably she rebels and the result is a spellbinding adventure in which Andrea steps through a magical doorway into an essentially modern world, falls in love, uncovers deep family secrets, saves her father's kingdom and in the process negotiates the tricky path from childhood to young adulthood with great aplomb. The writing is excellent, the historical detail accurate, and the action exciting. AS a parent, I give this one an A +"

grace\_notes, "Two Moon Princess Shines. Fast paced and full of twists, Two Moon Princess follows Andrea, a strong-willed princess, from her Spanish Medieval world to present day California and back. While her unplanned return to her own world with a Californian boy brings war to Andrea's kingdom, her brave and at times foolish attempts to stop the war and keep the American boy alive has unforeseen consequences that will change her forever. A feminine protagonist girls can admire, Andrea's daring, strength, powers of observation and compassion lead her and us to discoveries about our world and ourselves. The characters are fully realized and the romance, forbidden and unexpected, makes for a deeply satisfying ending. This is an excellent fantasy book for children and adults alike. I highly recommend it."

Northernmama, "Different for a change.. This book was a nice change of pace. At first glance I thought great, another knight and princess story. But then the book takes a big twist. Great read for vacation. It took me a few chapters to become invested in the story. After that it was a fun read."

Ebook Tops Reader, "Page Turner. I enjoyed this story very much...very different. I found it very hard to put down. I hope you enjoy it too."

A.J. Garcia, "Simply...wonderful.. Simply put, an adventure that you will read again and again. Carmen has balanced the art of action, suspense, drama, and love. A wonderful read to any active mind."

addicted2books, "A Interesting Read. Book Description: (taken from amazon)To Andrea, the life of a princess is not a dream; it's tedious and stifling. But the certainties of her life, both good and bad, are thrown into chaos when she accidentally travels to an alternative world, from a cave on a forbidden beach in her family's kingdom to the warm and carefree life of Southern California. Then a careless visit to the cave results in terrible consequences: a brewing war between kingdoms, her sister's love for the wrong man, Andrea's own conflicted feelings for an enemy leader, and dark family secrets exposed. Andrea needs to act to resolve problems which she helped to create, and she faces many difficult choices, torn between duty and desire on so many levels. Readers will enjoy the mix of traditional elements of the fantasy genre, with fresh ideas and a look at our culture through the eyes of a stranger.I was given this book by netgalley for my honest opinionMy Opinion:Andrea is a princess but not one that a normal little girl wants to be. It doesn't include servants and grand balls, no life for Andrea is hard. Her life is surrounded by war and dark family secrets. This book is more aimed for teenagers coming of age and young adults not for adults because me being as young as I am I liked it but I feel like it wasn't meant for me. With having that said, Andrea is someone who you feel for especially with everything she went through and is about to go through once you finished the book. There was so funny parts in this book. Andrea does start to develop feelings for someone she shouldn't because of who she is. But you start to wonder will that stop her? Would she survive everything? Her life as a princess? Her dark and unbelievable dark family secrets? And will love the one person who she's not suppose to? With reading this book, I kept in mind that it is for young adult, but I also know the author is working on a sequel. I am debating rather or not I want to read that. But knowing me I have to read more about Andrea and the decisions she has made."
