What people say about this book

melissa schwarmann, "Beautiful. Must have for any calligrapher.. Laura's entire expertise is in here. Well written, detailed and full of her great tips and recommendations. Really good for beginners interested in learning the artform. There are a few things for more advanced calligraphers as well, such as writing on rocks etc. But a must have in any calligrapher's library"

Kimberly Allgood, "LOVE!!. LOVE her books and online courses! HIGHLY recommend this book!"

Ebook Tops Reader, "Perfect wedding calligraphy book. Fantastic book!!! Loved the pictures! So inspiring!"

bookish, "Pretty Wedding inspiration. A pretty book, with beautiful photography throughout. Great ideas for weddings, and lots of help and tips for calligraphy, really great advice in this book, def one of the better calligraphy books around, as some just seem to be more style than substance. There are some different calligraphy styles included although they seem a bit small, it's a pity they weren't larger? Some fun project ideas."

andrea morrison, "Great addition to your library.. Excellent resource to have in my library. Great helpful information !"
